

BUS STOP INFORMATION

Buses have new stops and times this fall

Does your student ride the bus to school? Please check your bus route for any changes before school begins.

School bus routes, stops and schedules are adjusted every year. This fall, many bus routes will change as school schedules are aligned to provide enough and equal learning time for all 4J students.

Many students will have different bus pick up and drop off times. Some students will have new bus stop locations. All new bus stops have been established with safety in mind, such as adequate lighting and sidewalk access.

To find your bus stop and schedule, go to www.4j.lane.edu/transportation and click on “Find My Bus Stop.” Enter your address and student’s grade to find the closest stop, time, and route number. If you have questions, please call the 4J Transportation Department at 541-790-7474 and select option 4.

Thank you for your understanding regarding any changes in your bus schedule. These are important changes to get all students to school on time every day to receive enough learning time.
